

July 26, 2011

Mr. and Mrs. Washington,

Thank you so much for sponsoring my stay at Adventures of the Mind 2011. It was easily the most inspirational event I have attended. Without your help it is unlikely I would have been able to attend, but with it I had the honor of meeting some of the leading minds in fields of my interest, and the chance to gain new appreciation for many other areas of study. However, the most valuable thing I learned at *Adventures of the Mind* was that passion and motivation are the true keys to success. I had previously believed success was a product of luck or talent, but the speakers showed me that with enough time and effort almost anything is possible. This is a lesson I did not expect to learn, but one that I will doubtless keep with me for the rest of my life. Thank you again for helping make this event possible, it was truly wonderful to attend,

Sincerely,

Amzi Jeffs
